PROGRAMME REPORT

Name of the programme : Two weeks certificate course on “**CHEMOMETRICS**”

Duration of course : 05 / 07 / 2017 **TO** 22 / 07 / 2017.

Resource Person details : Dr. V. NARENDRA,
Professor,
9618171818,
n_velagapudi@gmail.com
Department of Pharmaceutical chemistry,
NRI College of pharmacy.

Number of students attended: 62

This programme covered the following objectives and learning outcomes.

Objectives:

To introduce students the importance of the use of mathematical and statistical methods to process real experimental data, to conduct multivariate analysis and apply experimental design strategies. To insure the interaction with computer using software.

Topics covered:

- Introduction to chemometrics.
- Basic statistics in chemometrics.
- Application of t-test and f-test.
- Analysis of variance.
- Factor design.
- Use of blocking.

- Multi factorial variance.
- Signal processing.
- Calibration.
- Validation.

Learning outcomes:

The student will be able to understand:

- To define data distributions.
- To apply statistical hypothesis test in chemistry.
- To use methods of exploration.
- To extract useful information.
- To calibrate analytical system.

Total 64 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive.

The management and Dr. Y. A. Chowdary, Principal of Nricollege of pharmacy thanked the resource person Dr. V. NARENDRA, Professor and participants for making the programme successful.

Date: 21/9/2017

PROGRAMME REPORT

Name of the programme : Two weeks Certificate course on “RAMANSPECTROSCOPY”

Duration of course : 04 / 09 / 2017 TO 20 / 09 / 2017.

Resource Person details : Mrs. A.RAMYASREE,
Assistant Professor,
8466918342,
Ramya.attaluri@gmail.com
Department of Pharmaceutical analysis,
NRI College of pharmacy.

Number of students attended: 62

This programme covered the following objectives and learning outcomes.

Objectives:

- RS is commonly used in chemistry to provide a fingerprint by which molecules can be identified.
- The basic theory of Raman spectroscopy.
- To understand Rayleigh scattering effect.
- Explain origin of Stokes and anti-Stokes lines in RS.
- RS yield more information about certain types of organic compounds.
- Most employed double grating system to minimize the spurious radiation.
- Difference between IR and RS.

Topics covered:

- Introduction to RS.
- Structural qualitative analysis.
- Components & applications in RS.
- Sample preparation.
- Energy shift mechanism.
- Rayleigh scattering effect.

Learning outcomes:

- RS has great potential in a broad range of applications in pharmaceutical industry.
- Detailed information about chemical structures, phase and polymorph.
- Optical instrument that separates light into its constituent wavelength in the form of spectral lines.
- It is a vibrational spectroscopy.

Total 64 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive.

The management and Dr. Y. A. Chowdary, Principal of Nri college of pharmacy thanked the resource person Mrs. A. RAMYASREE, Assistant Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme : Certificate course on “**THESIS WRITING**”

Duration of course : 03 / 10 / 2017 **TO** 14 / 10 / 2017.

Resource Person details : Mr. A.SURENDRA,
Associate Professor,
8096535184,
surendracology@gmail.com
Department of Pharmacology,
NRI College of pharmacy.

Number of students attended: 56

This programme covered the following objectives and learning outcomes.

Objectives:

- Learn about a topic in preparation for large research project.
- Review writings by other researchers on a given topic.
- Update a previous literature review.
- Research objective should be SMART- Specific, Measurable, Achievable, Realistic And Time Constrained.
- What steps to be taken to achieve the desired outcome?

Topics covered:

- Find a working topic.
- Review the literature.
- Focus your topic narrowly and select papers accordingly.

- Read the selected articles thoroughly and evaluate them.
- Organize the selected papers by looking for patterns and by developing subtopics.
- Develop a working thesis.
- Organize own paper based on the findings.
- Write the body of the paper.
- Focus on analysis, not description.

Learning outcomes:

The student will be able to understand:

- How to select an easy topic and organized information for their research.
- To develop an appropriate thesis statement.
- To recognize, identify and apply features of an academic research.
- To identify the differences between research and reports.
- To organize a report correctly.

Total 56 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive.

The management and Dr. Y. A. Chowdary, Principal of Nricollege of pharmacy thanked the resource person Mrs. N NAGA MALLESWARI, Assistant Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme : Two weeks Certificate course on “HAZARDOUS DRUGS-HANDLING IN HEALTH CARE”

Resource Person details : Mrs. S.S.V.S SWETHA,
Associate Professor,
8464818287,
swethapharmaco@gmail.com
Department of Pharmacology,
NRI College of pharmacy

Date of the programme : 04 / 12 / 2017 to 20 / 12 / 2017.

Number of students attended: 56

This programme covered the following objectives and learning outcomes.

Objectives:

- Main goal was to create an effective, accessible, sustainable, multifaceted training programme for hazardous drugs.
- National institute for occupational safety and health.
- It also includes mechanism to ensure safe handling of drugs.
- To develop support policy like hazardous drug handling committee (HDHC).
- List the acute and chronic health effects of occupational exposure to hazardous drugs.
- Establish training procedures for handling of hazardous drugs.
- Compliance with hazardous drug handling procedures.

Topics covered:

- Introduction.
- Exposure risks.
- Exposure routes.
- Prevention exposure.
- Safety culture.
- Strategies to promote hazardous drug safety,
- Educate staff about hazardous drug and safe handling.
- Labeling requirements.
- Provide safety data sheets.
- Detailed policies on working with hazardous drugs.

Learning outcomes:

The student will be able to understand:

- Hazardous drug exposure is a serious risk.
- Identify the potential adverse effects of handling hazardous drugs.
- Understand the difference between standards and guidelines.
- Describe the process of performing an assessment of risk for drug safety.

Total 56 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive and gained knowledge on safe handling of drugs.

The management and Dr. Y. A. Chowdary, Principal of NRI college of pharmacy thanked the resource person Mrs. S.S.V.S SWETHA, Assistant Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme : Two weeks Certificate course on “**STRUCTURAL INTERPRETATION BY IR AND NMR SPCETROSCOPY**”

Duration of course : 06 / 02 / 2018 TO 27 / 02 / 2018.

Resource Person details : Mrs. SK. AMMAJI,
Assistant Professor,
9705521675,
Shaik.ammaji8@gmail.com
Department of Pharmaceutical Chemistry,
NRI College of pharmacy.

Number of students attended: 76

This programme covered the following objectives and learning outcomes.

Objectives:

- To teach the basic aspects of nuclear magnetic resonance.
- This is important analytical tool in chemical and pharmaceutical industry.
- Mainly meant for structural characterization of molecules.
- Quantitatively determine concentration of molecules in sample.
- NMR is primarily used to determine a molecules chemical structure.

Topics covered:

- Introduction to spectroscopy.
- Electromagnetic radiation and molecular spectroscopy.
- Infra-red spectroscopy theory.
- IR spectrum and interpretation.

- NMR theory.
- Structural determination.

Learning outcomes:

- Students employed a combination of unknown alcohols, without being provided with a list of possible structures.
- Constructed trail structure and predicted NMR spectrum.
- Students used IR spectra to identify functional groups present.
- The structure was compared with boiling point and density data available.

Total 76 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive.

The management and Dr. Y. A. Chowdary, Principal of Nri college of pharmacy thanked the resource person Mrs. SK. AMMAJI, Assistant Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme : Certificate course on “**LITERATURE REVIEW**”

Duration of course : 06 / 02 / 2018 TO 23 / 02 / 2018.

Resource Person details : Mrs. U.TULASI,
Assistant Professor,
9640272447,
Tulasi26691@gmail.com
Department of Pharmaceutical chemistry,
NRI College of pharmacy.

Number of students attended: 56

This programme covered the following objectives and learning outcomes.

Objectives:

- Motivate your work by explaining its social value.
- Provide background context for readers.
- Compare your findings with other research.
- Justify your experimental method.
- Communicate your project's scientific novelty by framing a research gap.

Topics covered:

- To make a research topic by systematic analysis.
- To create a study plan by reviewing the studies.
- To identify initial primary sources of research topic.
- Reading abstracts to narrow sources if needed.

- Summarize in paragraph form important information from each source includes citations.
- Create a table of summarized information.
- Prepare for first draft by identifying an organizational approach and writing strategically.
- Edit proof and polish repeatedly.

Learning outcomes:

The student will be able to understand:

- To motivate the researchers by explaining the social value.
- To provide background context for readers.
- To compare finding with other research.
- To justify the experimental methods.
- To identify the research gape and have enough references to defend it.

Total 56 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive.

The management and Dr. Y. A. Chowdary, Principal of NRI college of pharmacy thanked the resource person Mrs. Mrs. U.TULASI, Assistant Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme : Certificate course on “**NEUROANESTHESIA**” for II / IV
B.Pharm students

Duration of course : 05 / 03 / 2018 TO 15 / 03 / 2018.

Resource Person details : Mr. A.SURENDRA,
Associate Professor,
8096535184,
surendracology@gmail.com
Department of Pharmacology,
NRI College of pharmacy.

Number of students attended: 61

This programme covered the following objectives and learning outcomes.

Objectives:

- To understand technique and anesthetic effect.
- To understand perioperative management.
- To understand mechanism of brain protection and how to give brain protection.
- Have a general knowledge of cerebral blood flow (CBF).
- Understand the general principles, advantages and disadvantages of neuroanesthesia.
- Describe management of increased ICP for craniotomy.
- Understand the pathophysiology of acute and chronic spinal cord injury.

Topics covered:

- Anatomical considerations in neuroanesthesia.
- Mechanism of neuronal injury.
- Cerebral protection.
- Anesthesia.
- Pain management.
- Airway management.
- Neuro intensive care.
- Neuro trauma.
- Anesthesia for craniotomy.
- Spinal cord injury.

Learning outcomes:

The student will be able to understand:

- Build knowledge related to patient experience of trauma, particularly spinal immobilization.
- Integrate knowledge about acute brain injury.
- Continue to develop comprehensive assessment and monitoring skills and abilities.
- Interventions based on risk factors.
- Role of healthcare professionals and contributions.

Total 61 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive.

The management and Dr. Y. A. Chowdary, Principal of Nri college of pharmacy thanked the resource person Mr. A.SURENDRA, Associate Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme: Two weeks Certificate course on “RECENTLY BANNED DRUGS”

Resource Person details: Mrs. S.SASI MOUNIKA,
Assistant Professor,
8885931894,
Sasimounika66@gmail.com
Department of Pharmaceutics,
NRI College of pharmacy

Date of the programme : 04 / 04/ 2018to23 / 04 / 2018.

Number of students attended :54

This programme covered the following objectives and learning outcomes.

Objectives:

- Despite all precautions some adverse effects of drugs appear only when the drug is used in general population.
- A number of single use or fixed drug use combinations have been banned.
- Understand the drug development and approval process.
- Knowledge of labeling requirements.
- Discuss errors in for processing both new and refill prescriptions.
- Understand the recall process.

Topics covered:

- Introduction
- Drug market
- Banned drugs
- Drug toxicity
- Controversial drugs
- Establishment of committees
- Reasons for banning a drug
- Examples of recently banned drugs with reasons.

Learning outcomes:

- Banned and bannable drugs are ever increasing problem.
- There is clear need for pharmacovigilance studies in our country.
- Measures should be taken to pick up adverse effects of drugs at the earliest.
- Awareness programmes should be conducted.
- Drug authorities should be prompt enough to withdraw the sale of drugs.

Total 54 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive and gained knowledge on recently banned drugs.

The management and Dr. Y. A. Chowdary, Principal of NRI college of pharmacy thanked the resource person Mrs. S.SASI MOUNIKA, Assistant Professor and participants for making the programme successful.

PROGRAMME REPORT

Name of the programme : Two weeks certificate courses on **NANO EMULSIONS**

Date : 04 / 12 / 2017 to 20 / 12 / 2017

Resource Person details : Dr. Y.A CHOWDARY,
Professor,
9394686868,
yarlagaddaac@yahoo.co.in
Department of Pharmaceutics,
NRI College of pharmacy

Number of students attended: 32

Two weeks certificate course on **NANO EMULSIONS** was conducted on 04 / 12 / 2017 to 20 / 12 / 2017.

The following are the objectives, topics covered and learning outcomes.

Program Objectives:

- To determinate thr=e knowledge about how nano and microemulsions and suspensions as the controlled (Or) sustain drug delivery systems
- To give idea about how they work as the targeting drug delivery systems by the different approaches.
- This program aims to give deep explanation and knowledge about the different techniques and methods for the preparation of their formulation.
- It gives idea about the kinetic followed by the formulation i.e., drug release, bioavailability.

TOPICS COVERED:

- Introduction to the dosage form.
- Introduction to nano emulsion suspensions.
- Introduction to micro suspensions and emulsions.
- Preparation methods of nano emulsions and suspensions.
- Advantages and disadvantages of nano emulsions and suspensions.
- Advantages and disadvantages of micro emulsion and suspensions.
- Applications
- Marketed products

PROGRAM OUTCOMES:

After this program students are able to:

- Find out the different approaches of the nano product formulations.
- What are the pharmacokinetic parameters followed by the nano formulation.
- Whether nano emulsions and suspensions and micro emulsions and suspensions are categorized into targeting delivery systems on which basis.

Total 32 students were participated actively in the programme. This programme has gained knowledge to the students for their future outcomes.

The management thanked the resource person and participants for making the programme prosperous.

PROGRAMME REPORT

Name of the programme : Two weeks certificate courses on **INSTRUMENTATION TRAINING PROGRAMME**

Date : 12 / 03 / 2018 to 31 / 03 / 2018.

Resource Person details : Dr. G. VAMSEE KRISHNA,
Professor,
9394686868,
Vamsi.lok16@gmail.com
Department of Pharmaceutical chemistry,
NRI College of pharmacy

Number of students attended: 32

Two weeks certificate course on **INSTRUMENTATION TRAINING PROGRAMME**
was conducted on 12 / 03 / 2018 to 31 / 03 / 2018.

The following are the objectives, topics covered and learning outcomes.

LEARNING OBJECTIVES:

- To impart to new entrants' basic knowledge and skills.
- To assist the students to function more effectively in the present position by exposing them to latest concepts, information and techniques and developing in them the skills required in their fields.
- To build up a second line of competent officers and prepare them as a part of their carrier progression to occupy more responsible positions.
- By providing them opportunities for interchange of experiences within and outside with a view to correct the narrow outlook that may arise from over specialization.

TOPICS COVERED:

- Sensor and transducer
- General remarks
- Absolute and relative pressure
- Measurement Units
- Bourdon Pressure Gauges
- Differential Manometers
- Weight Manometers
- Structure and Functioning

LEARNING OBJECTIVES:

- To provide an understanding of the principles of operation of a range of sensors and transducers
- Exercise a hands-on approach, that will empower the delegate to investigate the operation of an instrumentation system through designing, building and testing typical sensor combined with appropriate signal conditioning circuits
- Familiarize and be confident with a range of measurement techniques
- Specify, indicate and design instrumentation systems for pressure, level, temperature and flow
- Identify and recognize a large number of industrial analytical measuring instruments
- Facilitate the following types of measurement: pH, conductivity, turbidity, hygrometry, dissolved oxygen, total free chlorine and on-line chromatography
- Apply and Implement procedures for testing and calibration of analytical instruments
- Troubleshoot and identify problems with instrumentation systems
- Describe and explain the construction and operation of the most important analytical instruments.

Total 32 students were participated actively in the programme. This programme has gained knowledge to the students for their future outcomes. The management thanked the resource person and participants for making the programme prosperous.
