**Report Form on: "DRUG INSPECTOR CURRICULUM".**

This session on "Drug inspector Study Curriculum" was initiated at NRI COLLEGE OF PHARMACY by our Departmental heads to motivate the students for their future career prospects in the pharmacy field. Drug inspectors are specialists who monitor a drug's safety, utility performance, and consistency from the time it is manufactured until it is sold in a retail outlet.

This program was inaugurated by Y.A Chowdary sir NRI COLLEGE OF PHARMACY and gave a speech about the role and responsibilities of drug inspectors and their duties has been explained clearly to students. Drug inspectors are also known as quality maintenance public servants for the medical service on behalf of government bodies.

Drug Inspector's main responsibility is to examine pharmaceutical companies, medical stores, and medicine-related factories at various stages of the research and development, distribution, and selling procedure to determine that prescribe standards have been included in their daily setup of Sop and determine the standards as per norms.

The overall program was successful and this leads a pathway for the students to develop their idea on the study of drug inspector course and get benefitted from the given curriculum. this also helped students to understand the future design of the government sector and get benefits for their profession.
