## **VolkSoft Technologies – A Brief Profile**

VolkSoft Technologies Private Limited is a software development and technology services company based in Hyderabad, India. Founded in 2002 by a group of highly experienced software professionals, VolkSoft Technologies has built a solid reputation in the area of product development and services.

The company has used its internal resources to chart a steady growth from just five members and no clients, to over fifty members, several products & services, over 400 accounts, and three branch offices – Mumbai, Nagpur and Vijayawada.

VolkSoft Technologies is promoted by a team of five professionals with several years of experience in diverse domains such as real-time trading systems for Stock Markets, Education, Medicare and Manufacturing.

This team has, in the past, delivered large real-time fault-tolerant systems, client/server and multi-tier systems handling humongous data volumes in some of the most mission-critical areas.

Each of the promoter-directors has between ten to fourteen years of hands-on experience managing large teams, delivering end to end solutions in several domain areas, and on diverse technology platforms.

A unique strength is the fact that the founders had worked closely together for over seven years before deciding to float a company of their own. This contributes a tremendous level of understanding, teamwork and unity of purpose that are very important to the long-term growth prospects of any company.

Another important strength is their complementary skills in technology, human resource management, quality assurance, marketing and administration.

VolkSoft Technologies has its head office in Hyderabad, Andhra Pradesh, and has all the advantages of being in the middle of one of the fastest growing software development centers worldwide.

With marketing and technical support teams situated in various cities in the state as well as outside, VolkSoft Technologies is able to provide its customers with onsite training as well as 24/7 technical assistance.

The company presently has 45-50 employees on its rolls, of which 50% are from a technical background

## Ongoing Projects/ Products

Below is a representative list of projects (at various stages) that we are currently involved in:

- In partnership with a Kuwait-based company, building a rich multi-lingual web portal for educational institutions in GCC countries. The portal provides functionality for students, parents, staff and administration by integrating with ERP backend at each institution. The site also provides comprehensive social networking features.
- On-line system for assessment and certification of fire safety for a US client. The system is live and in use recording inspection information across several sites in the US
- Automation of over 100 Learning Centers across the state of Andhra Pradesh with client/server architecture and database replication -based solution supporting web-based MIS for one of the largest and most reputed educational institutions in the state.
- GIS/GPS-based Vehicle Tracking solution with real-time communications and third-party hardware integration for US-based client
- Web-based School Administration Automation system for schools in the US (with K-12 integration) in use at 6 schools
- Extending an existing banking solution to support Any Branch Banking / ATMs for a co-operative bank in India
- Property Management System for US-based client
- Point-of-Sale & Check Processing software for US-based client
- Browser add-ons and website for US-based client
- Proprietary Stock Research & Analysis with site-scraping for US-based client
- Internet-based lab management system integrating over 100 satellite labs across the country for NCMSL (National Collateral Management Services Limited, India)
- Web-based MIS system for Directorate of Technical Education, AP State Government
- Common Entrance Exam for Polytechnics (CEEP) 2007-08 on-line Application Form and Hall Ticket generation system with interface to AP On-line and other large systems
- Internet-based trading solution for Indian stock exchanges

## Research & Development

Our biggest asset is our development team. With extensive experience in diverse domains such as Financial & Stock Markets, Education, small/ medium Business Automation, Medicare, Manufacturing, etc., we have all the resources necessary to assist our customers throughout the development and deployment cycle of even the most complex projects.

Our R&D team is constantly striving to make our products and services best of breed, making effective use of state of the art technology and building optimal solutions that deliver far beyond the customer's brief.

Value is added at every stage, be it at the analysis and design level, user interface level, in the process workflow, on-line documentation, or in the implementation and support that we provide on-site.

### **Development platforms, tools and technologies**

Currently VolkSoft Technologies delivers solutions on the following platforms, tools and technologies:

<b>Operating Systems</b>
Windows (2000/XP/NT)
Linux
<b>Development Platforms</b>
JEE / Hibernate / Web Services
Microsoft .NET
PHP / Joomla
Flex / AIR (rich client)
TIBCO / GI (rich client)
<b>Programming Languages</b>
Java Enterprise
C#.NET
Borland Delphi
C/C++
Qt Toolkit (C++) for cross-platform development
Visual Basic (legacy)
<b>RDBMS</b>
MS SQL Server
IBM DB2
PostgreSQL
Oracle
MySQL
<b>Desktop Databases</b>
All X-base flavours
MS-Access
<b>Protocols / APIs / Middle Tier / Networking / Other</b>
Sockets
Telephony
FIX
Web Services, RIAs (Rich Internet Applications), I18N, L10N
<b>Internet Servers</b>
Apache/Tomcat
IIS
WebLogic

WebSphere

Adobe Photoshop / Illustrator / Flash

Blender

Maya

## Quality Assurance

With its stringent In-house Quality Assurance Program, VolkSoft Technologies ensures that all end-user requirements are met without any compromise whatsoever.

VolkSoft Technologies has designed and developed its own internal workflow management software, and uses it to track the progress of all its marketing & development efforts.

This fully integrated system provides the following features:

- Complete software development life-cycle management
- Bug tracking & comprehensive test-cases database
- Support & Assistance database
- Marketing & Prospects database

By following industry-standard development and testing methodologies, VolkSoft Technologies is able to ensure very high levels of quality with minimum scope for errors and bugs to creep into final product releases.

## Products & Services

### Enterprise Resource Planning

VolkSoft's state-of-the-art ERP solution for small- and mid-size industries is fast maturing into a solid, cost-effective solution in the local manufacturing industries segment. Using the latest .NET technologies and fully Internet-ready, the ERP system is set to revolutionize the market with its innovative features and exceptional ease of use.

Salient features include:

- Delivery and Logistics
- HR and Payroll modules; biometric (fingerprint identification)/swipe card attendance module, movement register, payslips, user-defined allowances, deductions, formulae
- Finance, Accounting, Budgeting, Costing, MIS reporting
- Quality Control
- Maintenance
- Inventory & Warehouse Management

- Purchase Management
- Scheduling
- Internet-ready and designed for optimal performance on Wide Area Networks (WANs) and Virtual Private Networks (VPNs)
- Delivered by a company that has extensive experience in WAN and VPN software implementation
- Customisable

The system integrates all functions of the enterprise into a single system and delivers business critical information online. It allows you to substantially improve control and utilisation of resources resulting in:

- Higher productivity
- Operational efficiency
- Better production scheduling
- Lower inventory
- Smoother cash flow management
- Secure
- Scalable
- Flexible

The system is currently undergoing beta testing at select sites in telecom and pharmaceutical industries.

### **EzSchool / Insight – ERP for Educational Institutions**

EzSchool is VolkSoft Technologies' maiden product offering. It is a comprehensive administration & management tool for schools, colleges and other educational institutions. Insight is the new enterprise-level implementation of the same, catering to the needs of very large educational institutions such as international residential schools, professional colleges and universities.

EzSchool provides several modules that cover every aspect of school management, including:

- Comprehensive student database
- Exams/ Progress Cards/ Analyses
- Attendance management (including biometric fingerprint capture and swipe card support)
- Staff Payroll with support for all types of allowances, deductions, Leave management, etc.
- Full-fledged Financial Accounting
- Library, Inventory, Hostel/ Dormitory
- Fleet management
- Vehicle Fleet Management

EzSchool is available in Standard, Professional and Enterprise versions. It is a highly scalable solution and supports business logic requirements of regular

schools, colleges, engineering and other professional colleges and international schools.

Insight adds web-based MIS reporting, parent login and a host of other features to the basic EzSchool feature-set.

### **EzDial - Interactive Voice Response System**

VolkSoft Technologies provides two highly effective IVRS systems. One, a very cost-effective internal modem-based option that provides a first level of customer support or reduce the manpower effort involved in providing counselling.

The system is completely customisable and can be used in several domain areas. Currently, versions are available for Distance Education counselling, school/college student information dissemination, and related areas.

Unlike more expensive hardware-based and imported systems, the TCO is very low and the system provides support for multiple Indian languages and Indian accent narrative.

The second option is a more powerful Intel Dialogic-based alternative with support for multiple phone lines and automatic dial out. With its user-configurable menu system, the software can be tailored to operate in any environment.

The call scripting can be tailored to any need, and multiple scripts can be maintained. It is also possible to run different scripts on each line.

The system is currently in use at several organizations, including defence housing establishments where hundreds of apartments use the system to record their complaints and provide feedback on housekeeping.

### **Office Automation Suite**

With in-built Financial Accounting, Payroll and Inventory, the Office Automation Suite is a cost-effective solution for handling the operations of small and medium-sized businesses. Each of these modules provides comprehensive domain-level features and is a complete product in its own right.

### **Turnkey Projects**

VolkSoft Technologies also provides consulting and development services to companies in the area of manufacturing, finance, web presence creation & management, etc.

Additionally, VolkSoft Technologies has executed one-off assignments for various software companies in Hyderabad, such as building specialised software components and tools

VolkSoft Technologies has delivered several small- and medium-size solutions to several customers in the USA on turnkey basis on diverse platforms and architectures, and continue to actively market our services to international customers looking for quality assured and timely delivery.

## **Marketing**

VolkSoft Technologies has its own marketing team for direct selling. The team has a very high success rate, converting more than 90% of all EzSchool demos to sales. The team is extremely knowledgeable about the domain and helps maintain excellent relations with the existing client base, leading to repeat orders and strong recommendations.

### **Domestic Marketing**

Till recently VolkSoft Technologies has chosen to market its products and services exclusively and directly to end customers.

Trial marketing of the new ERP solution has shown tremendous potential, with prospects in several industry segments evincing keen interest in the right mix of features and technology that the VolkSoft Technologies solution provides. A techno-commercial team has been formed within the company in order to promote the product in several verticals, notably pharmaceutical and manufacturing industries.

In the meantime, "*EzSchool – Automated Administration & Management System*", VolkSoft Technologies' maiden product has been promoted mainly in Andhra Pradesh, Maharashtra, Kerala and Karnataka, and the response has been quite overwhelming.

The company is currently on a drive to expand its market presence by setting up a distributor/reseller network across India specifically for its products and services. VolkSoft Technologies has already appointed dealers in Andhra Pradesh and Kerala.

Nevertheless, the company keeps direct contact with its customers in order to ensure quality of service and customer satisfaction.

### **International Tie-ups & Marketing**

VolkSoft Technologies is developer partner for Spiral EMT Inc, USA, and provides offshore development and testing services on .NET platform.

Kuwait-based WATCH Media are partners and exclusive representatives for EzSchool ERP solution in GCC countries, under the brandname "Au Fait".

## Management Team

### **Alan Pappachan (CEO & Managing Director)**

With over 14 years of experience in software development, Mr. Pappachan has been involved in and led several major projects and initiatives including real-time Internet trading systems based on the National Stock Exchange (NSE) CTCL framework and The Stock Exchange, Mumbai (BSE), IML framework.

At VolkSoft Technologies, he is instrumental in the identification of new growth areas, evaluation and rapid adoption of new technologies in the company, and also contributes his technical expertise in product development.

Mr. Pappachan began his career in OMC Computers Limited, one of the pioneering IT companies in India dealing in high end graphics solutions from Silicon Graphics Inc.

Prior to co-founding VolkSoft Technologies, Mr. Pappachan worked with SDG Software Technologies for over seven years, delivering several innovative solutions for the Indian stock markets

### **Byrisetty Srinivasa Rao (Head, Technical)**

Mr. Rao is Chief, R&D and is an expert on JEE and multi-tier technologies. His areas of domain expertise include banking sector, securities markets, financial markets, etc.

Mr. Rao has been in software development for over 10 years. He has been involved in the development of on-line trading engine, risk management software, and data mining tools for stock exchanges in India.

Earlier, Mr. Rao worked with Cognizant Technologies, the international software services firm, on projects in the US banking sector. His areas of expertise are JEE, enterprise-class design and architecture.

### **Srinivas Thouta (Head, Projects)**

Mr. Srinivas has immense experience in the implementation of very large database systems. At VolkSoft, in addition to his responsibility he is Chief of Customer Relations.

His skill in handling customers and problem installations is legendary and is one of the main reasons for the company's hard-earned reputation for quality service. Mr. Srinivas has over 11 years of experience in software development in various domains.

Mr. Srinivas began his career at Unicorn Organics. He also worked for SDG Software Technologies, heading the development of their broker and exchange back office products.

Mr. Srinivas was one of the key members of the team involved in the implementation of the first ASP-architecture (Application Service Provider) broker back office in the country at The Bangalore Stock Exchange.

### **Shashikanth Maidhampally (Head, Sales & Marketing)**

Mr. Shashikanth has over 9 years of experience in both domestic as well as international marketing. He heads marketing at VolkSoft Technologies and has been instrumental in the company's rapid growth. He has previously worked in Malaysia, Hong Kong, Thailand and Indonesia.

Blessed with a rare acumen for understanding the client's requirements and translating the same into a working solution, Mr. Shashikanth is a chief contributor to the dynamic energy of the company.

Previously, Mr. Shashikanth worked for SDG Software Technologies spearheading the marketing efforts both in the national as well as international markets.

### **Raju Kasanagottu (CFO)**

Mr. Raju is responsible for all financial aspects of the company, and is an expert in the area of Quality Management.

Although a Post Graduate in Computer Science, his natural talent for managing financial resources has come to the fore and is a contributing factor to the consistent, stable growth that the company has been able to achieve and maintain.
