Report on FDP

Name of the Programme: A one week FDP on "Recent Trends in Pharmaceutical and Biomedical Research".

Organized by: NRI College of Pharmacy

Date: 04.06.2018 to 10.06.2018

Resource Person: Dr. K. Rajya Lakshmi
Assoc Prof, BCOP-Bapatla
Mobile no: 9985081813
Emailid: rajimanohar3529@gmail.com

Objective of FDP

The objective of this FDP is to disseminate the modern knowledge of pharmaceutical and biomedical research to researchers and academicians and also to provide conceptual understanding of how pharmaceutical and biomedical research can be used in various fields. It also helps to train manpower in the field of pharmaceutical sector to fulfill the growing necessity.

Outcome of FDP

The program aims to provide widespread knowledge on the recent advancements of research in different areas of pharmaceutical sciences. The program intends to highlight using of new developments and technical expertise in pharmaceutical sciences. Purpose: As a part of acquiring the skills and qualification, this program will help to upgrade and meet the demand of the ever rapidly expanding technocratic arena.

Conclusion: Pharmacy and biomedical science are closely related disciplines, at different stages on the health spectrum. A clear idea on how biomedical science concepts and strategies are crucial in the research behind drugs and the ailments they treat. This program also provided knowledge on various pharmaceutical and biomedical inventions of recent times.

WHO CAN ATTEND

The entire faculty from NRI College of Pharmacy & other Pharmacy institutes faculty members

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 is the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound, diligent, magnanimity education in pharmacy.

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for the pharma Aspirants.

Resource Person: Dr. N.Ranga reddy
Assoc Prof, St. Johns- Yerrakota
Mobile no: 9866633458
Emailid: Rangareddy.n@gmail.com

Objective of FDP

The FDP has a main objective of understanding the current scenario of pharmacy professionals and the impact of rapidly developing technology on pharmacy practice.

Outcome of FDP

Discussions were made to understand the present scenario, opportunities, importance, regulations and various hurdles facing, by the pharmacy professionals. Impact and usefulness of rapidly developing technological applications and strategies were discussed for effective implementation of clinical pharmacy services. Purpose: The FDP is conducted to create an overview on wide range of systems and technologies that are available to support pharmacy professionals.

Conclusion: As the basic aim of clinical pharmacy practice is to help the patients to obtain maximum efficiency in a drug therapy with greater safety, the importance of harnessing technologies to support various aspects like patient counseling, therapeutic drug monitoring, ADR monitoring, prescription assessment and drug information services are proposed and discussed.

Resource Person: Dr. A. L. T. Kalyani
Assoc Prof, SRCP-Visakhapatnam
Mobile no: 9440592934
Emailid: kalyani.lakshmitripura@gmail.com

Objective of FDP

The objective of this FDP is to promote the knowledge and skills concerned with the basics of stem cells, isolation of stem cells, characterization and advanced potential applications in translation research and regenerative medicine.

Outcome of FDP

A platform was created to share knowledge on recent findings in the field of stem cell technology and providing hands on training on aseptic culture technique of stem cells, isolation of stem cells from bone marrow using animal models, lineage specific differentiation of stem cells and characterization using advanced molecular biology techniques. Purpose: The FDP is organized to provide detailed theoretical and laboratory knowledge on the stem cell technology and their applications, its importance in the field of pharmacy.

Conclusion: Knowledge on the stem cell technology, its isolation techniques and their characterization was provided. The importance and applications of stem cell technology in the present rapidly developing field of medicine are also drawn into lime light with an aspect of growing global stem cell market and necessity of generation of skilled manpower for industrial bioprocessing of stem cells and associated research.

Report on FDP

Name of the Programme: A one week FDP on "ICT Tools in Teaching Chemistry".
Organized by: NRI College of Pharmacy
Date: 03.12.2018 to 09.12.2018
Resource Person: Dr. A. Chakravarthy
Assoc Prof, CHIPS-Guntur
Mobile no: 911041302
Emailid: a_chakravarthy@chips.ac.in

Objective of FDP

The objective of this FDP to understand the importance of act in teaching learning process and applying of ICT in effective teaching of chemistry.

Outcome of FDP

The enhanced learning experience that reaches more students with massive open online course technique of ICT is discussed the enhanced quality and efficiency of delivery of teaching chemistry through act can be achieved by visualization of molecular structures and sophisticated reactions and their mechanisms using 3D visual models. Purpose: The FDP is organized to provide knowledge on simplicity and efficiency of delivery of technique complex topics of chemistry using act tools that makes teaching from better than traditional method.

Conclusion: Knowledge on various modes of ICT tools into chemistry teaching such as learning management systems interactive communication visualization tools chemical databases and online computational tools are provided and their implementation in teaching chemistry with their applications over traditional methods were also discussed

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 is the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound, diligent, magnanimity education in pharmacy.

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for the pharma Aspirants.

Report on FDP

Name of the Programme: A Five days FDP on “Foundation of Pharmaceutical Innovation on Research in 21st Century”.

Organized by: NRI College of Pharmacy

Date: 11.02.2019 to 15.02.2019

Resource Person: Dr. J. Ramesh Babu
Professor, CHIPS-Guntur
Mobile no: 9949063122
Emailid: j_rameshbabu@chips.ac.in

Objective of FDP

The objective of this FDP is to promote the knowledge to design a quality product and its manufacturing process to consistently deliver the intended performance of product. Continuous innovation is one of the pharmaceutical industries most defining characteristics, novel medications can be crucial for maintaining the quality of human life.

Outcome of FDP

Design reliable and valid questionnaires about research and novel methodologies of research are conducted and various statistical techniques that are helpful in research such as univariate, bivariate and multivariate analysis are discussed.

Conclusion: Innovation in pharmaceutical sciences in 21st century is needed to meet current challenges imposed by societal and environmental demander. Although innovation is largely determined by the interplay of dependence of pharmaceutical science on other fields such as biochemistry, biology, physiology and statistics, while the nature and geography of diseases evolve rapidly thus novel responses have to be generated at equal pace.

Objective of FDP

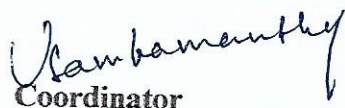

The objective of this FDP is to understand the concepts of IPR, importance of patents in the field of research and challenges that are faced in the field of IPR.

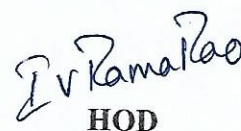

Outcome of FDP

The FDP provided insights on various departments of IPR and process of filing and patent. It also provided knowledge on emerging issues in IPR such as, compulsory licensing, parallel imports, inappropriate patenting, biopiracy and technology transfer.

Conclusion: Knowledge on patent filing process and issues that we face while filing a patent is clearly understood. Also, multidimensional factors in IPR that involves different actions and strategies which need to be aligned with national laws and international treaties and practices are clearly explained.

Resource Person: Dr. Y. Narasimha Rao
Assoc Prof, MAM-Narasaraopeta
Mobile no: 9989927487
Emailid: y_narasimha@mam.ac.in

Objective of FDP

The objective of this FDP is to promote the knowledge and skills concerned with the basics of Synthesis of Anti- infective and Anti- Cancer agents and how they are evaluated for their cytotoxic activity and potency to fight infections.

Outcome of FDP

Various steps involved in development and assessment of activity of novel anti-cancer and anti-infectives are discussed. Multistep reaction synthesis strategies for synthesis of pharmaceutical targets and evaluation of cytotoxic activity by MTT cell viability assay are also discussed.

Conclusion: Knowledge on various types of carcinoma and infections, their biological target proteins used for their treatment are clearly understood. Steps involved in chemical synthesis of various novel anti-cancer and anti-infectives, mechanism of actions and methods of pre-clinical and clinical evaluation of these agents are clearly understood.

WHO CAN ATTEND

The entire faculty from NRI College of Pharmacy & other Pharmacy institutes faculty members

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 is the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound, diligent, magnanimity education in pharmacy.

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for the pharma Aspirants.

Report on FDP

Name of the Programme: Five days Professional Development Programme for non-teaching staff
Organized by: NRI College of Pharmacy
Date: 3.6.2019 to 7.6.2019
Resource Person: Dr. T. Srilatha

Objective of FDP

Five days Professional Development Programme for non-teaching staff.

Outcome of FDP

Professional development training for non-teaching staff is to become better at planning and be more organized.

Conclusion

It provides opportunity for all non-teaching staff to further improve their professional skills and develop their awareness and knowledge in current education and support practices.
